I would like to amend our license for Soil Moisture/Density Gauges as follows:

- | | | |
|-------------------------------|-------------------------------------|----------------------------------------------------------------------------------|
| 6. <u>By Product Material</u> | 7. <u>Chemical or Physical Form</u> | 8. <u>Maximum amount licensee may possess at any one time under this license</u> |
|-------------------------------|-------------------------------------|----------------------------------------------------------------------------------|

G. Americium²⁴¹

Sealed Source
(Campbell Pacific
Nuclear Model No.
CPN-131)

No single source to
exceed 50 millicuries

H. Cesium¹³⁷

Sealed Source
(Campbell Pacific
Nuclear Model No.
CPN-131)

No single source to
exceed 10 millicuries

9. Authorized Use

A and B. To be used in Campbell Pacific Nuclear Models BRC or MC soil moisture/density gauges to measure moisture/density of construction materials.

Conditions: these sources may be stored at 662 Cromwell Avenue, St. Paul, Minnesota 55114.

These Campbell Pacific gauges were transferred to us by Subterranean Engineering Corporation who sold their business and terminated their License No. 22-24333-01.

These gauges will be transferred to a sister company in the Huntingdon group - Nebraska Testing Corporation, Omaha, Nebraska.

SUBJECT

CN/86604 Re: receipts of gauges from Subterranean Eng. Corp.

SUMMARY

Called to verify that Twin City testing had indeed received the gauges that Subterranean Eng Corp said they would dispose of by transfer to Twin City on or about Dec. 23, 1988. Mr. Schultze verified they (Twin City) has obtained the four Campbell Pacific gauges that Subterranean Eng Corp had and have placed them in locked storage at Twin City Testing Facility. They plan to transfer them to a sister facility of theirs in Nebraska where they will be licensed in that Agreement State. He says he will ^{promptly} apply for amendment to add to their license for storage only at St. Paul MN. Facility to cover until they make transfer of gauges as their current license only ^{comprises} ~~has~~ 7 other gauges.
