Attention: Carol A. Connell

Dear Ms. Connell:

Subject: Material License, Number 45-24933-01 Amendment

Be advised that we have discontinued use of sealed sources moisture/density gauges containing licensed material at the jobsite located at the corner of Lynn Street and Eastbound Lee Highway, Arlington, Virginia, as construction is now complete.

We wish to maintain our license, for use of sealed sources moisture/density gauges as currently identified therein, to conduct testing services at a temporary jobsite located at the intersection of Fairfax County Parkway and Franklin Farms Road, Fairfax, Virginia. (Telephone No. 703-435-4744) The gauging device, provided by the Virginia Department of Transportation, when not in use will be locked in the enclosure marked "X" on the attached sketch.

We ask that our Material License, number 45-24933-01, be amended to show the above changes. Enclosed is a check in the amount of \$60.00.

If there are any questions regarding the above requested amendment please call 703-435-4744. Your cooperation in this matter is appreciated.
