Gentlemen:

Subject: Payment of Civil Penalty

After consideration of the NRC letters and appendix of December 27, 1989, Yale-New Haven Hospital has decided that further efforts to appeal the matter regarding our inadvertent loss of a defective Heymans capsule would be counterproductive. Therefore, you will find the enclosed check No. 044009, in the amount of \$1,250.00.

While Yale-New Haven Hospital regrets that this incident occurred, we feel that we have benefited from the experience. The lessons learned from this will serve to improve our efforts to maintain the safety standards required in the use of radioactive sources. We also believe that our experience will benefit medical licensees as a whole by illustrating the high level of attention necessary to prevent unforeseen incidents of this nature.

Sincerely,

Norman G. Roth
Asst. V.P., Administration

Michael J. Bohan
Radiation Safety Officer

cc: NRC Region I
