# AWARE INCORPORATED

consultants in environmental management

December 2, 1988

U.S. Nuclear Regulatory Commission, Region I  
Nuclear Materials Safety and Safeguards Branch  
831 Park Avenue  
King of Prussia, PA 19406

Dear Sir:

Enclosed please find the appropriate application for an amendment to the NRC Material License issued to AWARE Incorporated, West Milford, New Jersey. The purpose of the amendment is to supply a current address at which the licensed material will be possessed and to show the building and location within the structure where the licensed unit will be stored. The AWARE Incorporated offices are in the process of being moved from 80 Airport Road, West Milford, New Jersey to 1200 MacArthur Boulevard, Mahwah, New Jersey. This application amendment is to reflect the change in office location only. No other areas of the Materials License are changed from that originally dated March 20, 1985. The licensee has and shall continue to possess and use licensed material in accordance with statements, representations, and procedures contained in the application of March 20, 1985.

Enclosed are two floor plan diagrams. Drawing TA-1 depicts the office area of the first floor of the 1200 MacArthur Boulevard commercial office building. This floor is completely devoted to AWARE Incorporated. The second and third floors of the structure are under construction completion and are not yet occupied. Drawing number A-2 depicts the basement area of the structure and the assigned AWARE Incorporated storage. Notation has been made to reflect the storage location of the Troxler Electronic Gauge within the secured storage area under AWARE Incorporated control. Regulatory compliance as regards the distance from any personnel work stations and appropriate placarding have been insured.

A license fee category of 3P has been assigned to AWARE Incorporated and a fee in the amount of \$60.00 has been enclosed.
