The Honorable Lando Zech  
Chairman  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

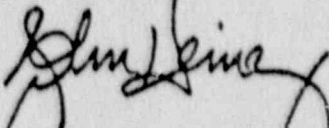

Dear Mr. Zech:

I am writing in support of Dr. Frederick Forscher for a position on the Advisory Committee on Reactor Safeguards. As you are no doubt aware, Dr. Forscher is among the Nation's leading Quality Assurance specialists, and would make a significant contribution to the Committee.

I have known Dr. Forscher for many years. He served with distinction on the technical staff of the Kemeny Commission, and was a co-founder of NUMEC. I believe no other individual possesses his knowledge of Quality Assurance.

Doctor Forscher is very much interested in the position, and I hope that his qualifications will be given appropriate consideration. If there is any additional information to be provided, please let me know.

Sincerely,

  
John Heinz
