Docket No. 99901166/89-01

Mr. Paul Clark, President
Midwest Valve Parts Supply
Company
Post Office Box 668
Chesterland, Ohio 44026

Dear Mr. Clark:

This letter addresses the inspection of your facility at Chesterland, Ohio led by Mr. Joseph J. Petrosino, of this office on June 22, 1989, and the discussion of his findings with you at the conclusion of the inspection.

The inspection was conducted as a result of an October 21, 1988 10 CFR Part 21 report filed by Consumers Power Company for its Palisades power plant regarding non-genuine Masoneilan-Dresser Industries (MD) valve parts that were supplied to Palisades from an authorized MD sales representative. Areas examined during the NRC inspection and our findings are discussed in the enclosed report. This inspection consisted of an examination of procedures and representative records, interviews with personnel, and observations by the inspector. Release of this report was delayed during NRC's review of nonconforming and substandard vendor products.

Within the scope of this inspection, we found no instance where you failed to meet NRC requirements. In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room.

Sincerely,

Original signed by E. William Brach
