License No. 21-19111-02

Gentlemen:

Thank you for your letter dated January 8, 1990, informing us of the steps you have taken to correct the violations identified in our letter dated November 28, 1989. Regarding Violation 2, your response did not include all quarterly internal inspections for your radiographers, nor were they recorded on the correct forms. Specifically, you used Radiographic Utilization Record forms for your documentation.

As a result of our telephone conversation with you on January 19, 1990, we understand that you will send copies of quarterly internal inspections that have been performed since February 14, 1989, on the Internal Inspection Audit Record form. Steps should be taken to ensure that NRC-licensed materials are hereafter possessed and used only as authorized by your license. We will examine this matter during a future inspection.

Sincerely,

R. J. Caniano, Chief
Nuclear Materials Safety
Section 2
