Operating License No. DPR-73
Docket No. 50-320
TMI-2 Organization Plan - Revision 23

Dear Sirs:

GPU Nuclear requests NRC approval of the attached Revision 23 to the TMI-2 Organization Plan. This revision is submitted in conjunction with Technical Specification Change Request (TSCR) No. 65, Revision 1. One of the changes proposed in TSCR No. 65, Revision 1, is to extend the frequency of the Training and Qualification Audit to at least once per 24 months. Consistent with that proposed change, the annual Organization Audit, presently specified in Section 2.1.3 of the TMI-2 Organization Plan, should also be extended to at least once per 24 months. The audit of the Organization Plan, which ensures that members of the TMI-2 Organization meet the training and qualification requirements of their positions, is performed in conjunction with, and is an integral part of, the Training and Qualification Audit. Therefore, extending the frequency of the Organization Audit to at least once per 24 months is appropriate.

This revision also recognizes the changes proposed in TSCR No. 60 to replace the present SRG with the IOSRG during Mode 3.

Sincerely,

9002060146 900122
