Gentlemen:

Subject: Combined Inspection Report Nos. 50-277/90-05; 50-278/90-05

This refers to the routine safety inspection conducted by Mr. J. Furia of this office on January 22-26, 1990, of activities authorized by NRC License Nos. DPR-44 and DPR-56, and to the discussion of our findings held by Mr. J. Furia with Mr. M. Ryan and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection included transportation and radwaste programs, and are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, no violations or deviations were noted. Your transportation and radwaste programs were determined to be implemented in a highly professional manner by well-trained and competent staff.

Your cooperation with us in this matter is appreciated.

Sincerely,
