Radioisotope License and Topical Reports:  
Proposed Rule  
Duke Power Company Comments

Dear Sir:

In the Federal Register (54FR49763) dated December 1, 1989, the Nuclear Regulatory Commission published for comment a proposed rule to amend its regulations governing fees for all topical reports and licensing and inspection fees for radioisotope licenses.

Duke Power Company has reviewed the proposed rule and feels that the commission should not limit the means of payment to electronic funds transfer only. At times, electronic fund transfer is not available or desired to be used.

We appreciate the opportunity to provide input into the regulatory process.

Very truly yours,

Hal B. Tucker
