DOCKETING & SERVICE  
BRANCH

26 January 1990

SECRETARY, U.S. NUCLEAR REGULATORY COMMISSION  
Docketing and Service Branch  
Washington, D. C. 20555

Gentlemen:

Reference your Proposed Rules dated Thursday, November 9, 1989, 10 CFR Part 34, ASNT Certification of Industrial Radiographers. I respectfully oppose the NRC's participation in this program.

I am not in accord with the ASNT involvement in the radiographer certification program relative to radiation safety.

I sincerely feel that it will cause to create a dependence on ASNT and lessen the individual employers dedication and responsibilities for radiation safety.

The cost to comply will impose a severe hardship on my company and many others without any improvement in radiation safety.

Thank you.

Sincerely yours,

TULSA GAMMA RAY, INC.
