

February 2, 1990

Docket No. 50-320

Mr. Michael B. Roche
Vice President/Director - TMI-2
GPU Nuclear Corporation
P.O. Box 400
Middletown, Pennsylvania 17057

Dear Mr. Roche:

SUBJECT: ORGANIZATION PLAN CHANGE NO. 22 (TAC #75373)

Reference: Letter 4410-89-L-0119/0060P, M.B. Roche to U.S. Nuclear
Regulatory Commission, Document Control Desk, TMI-2
Organization Plan - Revision 22, dated November 27, 1989

We have completed our review of your proposed Revision No. 22 to the TMI-2 Organization Plan. The proposed revision eliminates the Defueling and Engineering Departments and includes the remaining engineering functions within the Engineering Section of the Site Operations Department. Additionally, a new section, the Special Projects and Construction Support Section, is being created in the Site Operations Department. The proposed changes reflect the conclusion of the TMI-2 defueling program and the elimination of the need of a separate engineering support organization. The proposed changes would be effective upon the completion of defueling.

The proposed changes will not eliminate any vital positions or functions within the TMI-2 organization, nor will it change the personnel qualifications for these positions. It represents an organization realignment consistent with the progress of the cleanup. We, therefore, approve your proposed Organization Plan Revision 22. The enclosed Figure 1.2, Rev. 22 should be substituted for the existing GPUN Organization Plan, Figure 1.2.

Sincerely,

/s/

John F. Stolz, Director
Project Directorate I-4
Division of Reactor Projects - 1/11
Office of Nuclear Reactor Regulation
