Docket No. 50-461

Illinois Power Company
ATTN: J. S. Perry
Vice President
Clinton Power Station
Mail Code V-275
P. O. Box 678
Clinton, IL 61727

Dear Mr. Perry:

SUBJECT: REQUALIFICATION EXAMINATION REPORT

On January 22-23, 1990, the NRC administered requalification examinations to four licensed employees at the Clinton Nuclear Power Station, who did not pass the NRC Requalification Examinations of September 1989. The operators, who were retested, successfully passed the NRC Requalification Examination in accordance with the criteria of NUREG-1021, ES-601.

The test materials supplied for this requalification examination were markedly improved compared to those supplied for the September 1989. Minimal or no modifications were needed for the questions submitted. Your Training Staff's achievement is commended.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

ORIGINAL SIGNED BY GEOFFREY C. WRIGHT
