Gentlemen:

The purpose of this letter is to provide information concerning the Generic Fundamentals Examination Section (GFES) of the operator licensing written examination to be administered on February 7, 1990. The PWR GFES and BWR GFES will be administered at the times and the location specified in Enclosure 1. Included with this letter are:

- ° A map of the area including the time and location where the examinations will be administered (Enclosure 1)
- ° A list of lodging in the immediate area (Enclosure 1)
- ° The name and telephone number of the regional contact (Enclosure 1)
- ° Preliminary instructions for those taking the examination (Enclosure 2)

Please ensure that each participant receives a copy of the instructions.

We are pleased with your response in support of this effort. The results of the examination should be available within 3 weeks following completion of the examination. A master copy of each version of the examination with answers, a table showing the scores of each candidate, and a copy of the answer sheet for each participant will be sent to the facility training department.

Sincerely,

Original Signed By:
Samuel J. Collins

Samuel J. Collins, Director
Division of Reactor Projects

Enclosure 2

Pre-Examination Instructions for the Generic Fundamentals Examination Section of the Written Examination - February 1990

The following instructions apply for the Generic Fundamentals Examination Section (GFES) of the Written Operator Licensing Examination to be administered on February 7, 1990.

- A. Identification - All participants must present photo identification (i.e., facility photo-badge, state driver's license, etc.) and sign a roster sheet prior to receiving an examination.
- B. Information Provided with the Examination - Each examination package will include an examination, a copy of the steam tables, an 'Equations and Constants' Sheet, a 'machine gradable' answer sheet and instructions on filling out the answer sheet. All material must be turned in at the completion of the examination.
- C. Use of Calculators - Use of personal pocket calculators and/or slide rules will be permitted during the examination. NRC will not supply calculators, so the participant should ensure that batteries are new or have been recently changed. No other examination aids will be permitted.
- D. Examination Administration - The examination will be administered using the criteria contained in ES-201 of NUREG-1021, "Operator Licensing Examiner Standards," as modified by instructions provided at the time the examination is administered.
- E. Decision to Withdraw - If for any reason prior to February 5, 1990, a participant decides to not take the examination, please inform your NRC regional contact.
- F. Examination Duration - The time designated to complete the examination is two and one-half hours. All participants will be required to hand in their examinations two and one-half hours after the proctor-designated initial start.
