Comments on Proposed Rule Affecting
the Transportation Regulations
(10 CFR Part 71)

Dear Mr. Chilk:

South Carolina Electric & Gas Company (SCE&G) has reviewed the proposed rule, "Transportation Regulations; Compatibility with Regulations of the International Atomic Energy Agency (IAEA)," as published in the Federal Register (53 FR 21550) of June 8, 1988 and believes the change will have a significant impact on our ability to ship dry active waste. Therefore, SCE&G fully endorses the comments provided by the Edison Electric Institute UWASTE group and the Nuclear Management and Resources Council (NUMARC) on the proposed Nuclear Regulatory Commission changes to 10 CFR Part 71. No additional comments will be submitted.

Very truly yours,

O. S. Bradham
