 Washington, D.C. 20555

Gentlemen:

E R A Systems, Inc. hereby submits its application for renewal of its NRC Materials License #41-15597-01E, Amendment No. 4, for distribution of EXEMPT products.

All conditions and limitations remain in effect except for modification of the label used in the distribution.

The old label is attached below:

When greater than 5 uCi were packaged we changed the label accordingly.

It is requested that we be authorized to use labels which are outlined on the attached sheet. The major changes involve

- (1) The use of the distribution name "The MESERAN Company, a Division of E R A Systems, Inc." since we market almost exclusively under that name now
- (2) Comments with respect to health hazards in accordance with "Right to Know" requirements. Each label will be somewhat larger than the present one.

We expect to begin shortly marketing two different levels of C-14 quantity in materially differing applications, hence the separate labels.

Our check for the license fee in the amount of \$230.00 is enclosed.
