Docket No. 50-282/306

Mr. T. M. Parker

Dear Mr. Parker:

SUBJECT: SAFETY EVALUATION FOR THE PRAIRIE ISLAND NUCLEAR GENERATING  
PLANT UNITS 1 AND 2 PROCEDURE GENERATION PACKAGE (TAC NOS.  
44331 AND 44332)

The staff has completed its review of your Procedures Generation Package (PGP) for the Prairie Island Nuclear Generating Plant Units Nos. 1 and 2 submitted in a letter dated May 31, 1983 supplemented by a letter dated June 18, 1984. The enclosed safety evaluation discusses programmatic improvements which will enhance your ability to develop and maintain consistently high quality Emergency Operating Procedures (EOPs). The majority of the findings are related to the writer's guide. The staff concludes that your PGP needs to be reviewed to address these programmatic improvements. For items you deem inappropriate or no longer applicable for inclusion in your PGP, you should develop and maintain documented justification in an auditable form.

The staff recognizes that your PGP may have been revised since the submittals, and requests that you maintain records of all revisions to your PGP and EOPs in an auditable form. No further submittals are required.

This action completes our review of the last remaining item in NUREG-0737, (TMI Action Items), for the Prairie Island project and closes out TAC Nos. 44331 and 44332.

Sincerely,
