

February 20, 1990

Docket No. 50-325
and 50-324

Mr. Lynn W. Eury
Executive Vice President
Power Supply
Carolina Power & Light Company
Post Office Box 1551
Raleigh, North Carolina 27602

Dear Mr. Eury:

SUBJECT: NRC GENERIC LETTER 89-13, "SERVICE WATER SYSTEM PROBLEMS
AFFECTING SAFETY-RELATED EQUIPMENT," DATED JULY 18, 1989 -
BRUNSWICK STEAM ELECTRIC PLANT, UNITS 1 AND 2 (TAC NOS.
73973 AND 73974)

By letter dated January 26, 1990, Carolina Power & Light Company (CP&L) submitted the first of two required responses to Generic Letter (GL) 89-13. Noting that you have committed to complete each of the five recommended actions of GL 89-13 by startup from the next scheduled refueling outage for each Unit (June 1990 for Unit 1 and May 1991 for Unit 2), we accept your response as fulfilling this requirement of the GL.

We remind you that if you choose a course of action different from the recommended actions of the GL, you should document and retain in appropriate plant records a justification that the heat removal requirements of the service water system are satisfied by use of the alternative program.

We look forward to receiving the second of the two required responses to GL 89-13.

Sincerely,

Original Signed By:

Ngoc B. Le, Project Manager
Project Directorate II-1
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
