Mr. Alvin Kaplan, Vice President
Nuclear Group
The Cleveland Electric Illuminating
Company
10 Center Road
Perry, Ohio 44081

Dear Mr. Kaplan:

SUBJECT: NRC GENERIC LETTER (GL) 89-13, "SERVICE WATER SYSTEM PROBLEMS
AFFECTING SAFETY-RELATED EQUIPMENT," DATED JULY 18, 1989
(TAC NO. 74043)

We have received your letter dated January 26, 1990 in which you submitted the first of two required responses to the subject generic letter. Noting that you have addressed the five recommended actions of GL 89-13 either committing to the staff recommended action or proposing what you consider to be an equally effective alternative, we accept your response as fulfilling this requirement of the generic letter.

We remind you that where you have chosen a course of action different from the recommended action of the generic letter, you must document and retain in appropriate plant records a justification that the heat removal requirements of your affected systems are satisfied by use of the alternative program.

We look forward to receiving the second of the two required responses to GL 89-13.

Sincerely,

/s/

Timothy G. Colburn, Sr. Project Manager
Project Directorate III-3
Division of Reactor Projects - III,
IV, V and Special Projects
Office of Nuclear Reactor Regulation
