

FEB 07 1990

MEMORANDUM FOR: Charles J. Haughney, Chief
Fuel Cycle Safety Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

FROM: George H. Bidinger, Section Leader
Uranium Fuel Section
Fuel Cycle Safety Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

SUBJECT: TELECON WITH JAMES BALL, RIDEM, RE UNC RECOVERY SYSTEMS,
WOOD RIVER JUNCTION, (UNC-WRJ) DOCKET NO: 70-820

On February 5, 1990, I received a call from Mr. Ball, Rhode Island Division of Environmental Management (RIDEM) (401-277-2797), who inquired as to the status of UNC-WRJ. He stated that the site was on the CERCLA list, but marked "not for action." His interest was triggered after receiving a call from Mr. Bob Gregg, UNC-Montville. Mr. Ball asked if I would send him a letter stating the condition and the NRC controls exercised over the site. In response, I indicated a willingness to respond in writing, but asked that he forward his request in writing so we could be fully responsive to RIDEM. At the same time, I asked for a copy of his CERCLA file.

I also informed Mr. Ball that, in the very near future, we were preparing to offer to meet with the State to discuss license termination. Mr. Ball stated he definitely wanted such a meeting and would inform his supervisors. In light of this meeting, he may not request the documentation discussed above.
