Dear Dr. Asmussen:

We have reviewed the changes to your Fundamental Nuclear Material Control Plan submitted pursuant to 10 CFR 70.32(c) by letter dated November 28, 1989, and prompted by the recent reduction in quantity of Strategic Special Nuclear Material in Plant I (HTGR Manufacturing).

We have determined that the changes do not adversely affect the common defense and security, nor the public health and safety, and are otherwise in the public interest. Accordingly, we are revising License Condition 2.1 of Amendment SG-1 to your License No. SNM-696 to incorporate this revision. Revised Condition 2.1 is effective immediately and reads as shown in the enclosure to this letter.

Sincerely,

*Original Signed by*
