TO: HEADS OF ALL FEDERAL DEPARTMENTS AND AGENCIES

Recent technological advances have led to the introduction of several new printing production devices. All Departments and Agencies are reminded that any device capable of producing an image on paper 11 x 17 inches or larger must be reviewed and approved by the Joint Committee prior to acquisition. This requirement applies regardless of the technological processes employed by the device (offset, electrostatic, etc.) and regardless of the intended location of the equipment. This notice does not, however, pertain to devices designed exclusively for reproducing engineering drawings.

Sincerely,

  
Wendell H. Ford  
Chairman
