Gentlemen:

This refers to the routine safety inspection conducted by W. P. Reichhold of this office on January 24, 1990, of activities authorized by NRC Byproduct Material License No. 13-17841-01 and to the discussion of our findings with you by telephone on February 1, 1990.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letter dated July 23, 1986, regarding apparent violations found during our June 27 and July 7, 1986, inspection. We have no further questions regarding these matters.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice. A written response is required.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,
