Dear Sir,

I am supporting Sen. Murkowski's "Murkowski Amendment" which sets ~~IAEA~~ standards. I am very aware and concerned about what plutonium can do to the people and the environment. One thing I know about plutonium is that it stays radioactive for thousands of years and plutonium is also a very lethal substance and can kill people. Please don't let the IAEA get their way. Show some concern for Alaska and Alaska's people support the Murkowski Amendment "Thanks

Sincerely,

Artis
