Dear Sir;

I know what is going on with the plutonium being flown over Alaska. Could you fly somewhere else because we have enough things wrong with Alaska already, like the oil spill, the maintain exploding, and the wildlife. So we don't need nuclear power materials flying over Alaska and possibly causing an accident. Please take Sen. Murkowski's amendment (NUREG 0360) strongly. Can you please use the safest containers so Alaska is not hurt?

Sincerely,

Karen Farnham
