Dear Sir,

I am a thirteen year  
old student attending Lincoln  
Jr. High. I am writing this  
letter, because of and concerns  
about how strict the  
regulations are for the  
plutonium contractors. I  
support Secretary Murkowski's  
amendment. Because if  
something were to go  
wrong it would destroy  
our natural surroundings  
besides spreading cancer.  
I hope that you will  
take this into consideration  
(Support NUREG 0300).

Sincerely,

Michelle Fernar
