OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Docketing and Service Branch  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Sir:

I'm an 8th grader in Wasilla, Alaska. Since I've found out that the Japanese will be flying plutonium over Alaska, I've been concerned. I know that some people don't think the standards should be that high for the plutonium containers but I do. This is probably one of the most beautiful and clean states in our country. It shouldn't be ruined by plutonium dumped all over the place. It would contaminate the people and wildlife of Alaska, give us radiation poisoning, or maybe even killing us!

I support Senator Murkowski's amendment (NUREG 0360) in making plutonium containers safer. If an accident should ever happen and a plane carrying plutonium should ever crash

over Alaska, the <sup>US</sup> safe containers  
will keep a tragic accident  
from happening.

Sincerely,

Jana Sexta
