U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Sir,

I am supporting Sen. Murkowski's amendment (NUREG 0360). The Alaskan legislators have already made a large mistake on not giving protection to Prince William Sound, that means we (Alaskan citizens) did not take the precaution steps needed to protect the land, would be etc..

I only ask of you to help protect Alaska's future by having safety containers ban the plutonium. I know that there is no way of the fact that Alaska's shorter route, but please let's take some precautions and help us protect our land.

Sincerely,  
Irissha Berg  
DS100
