Docketing and Service Branch
U.S. Nuclear Regulating Commission
Washington, D.C. 20555

Dear Sir:

I am writing this letter with concern about the plane that is flying over Alaska. I have been living in Alaska for about 1 month now and if the plane flys over Alaska with plutonium and the plane crashes that will destroy just about everything. I strongly disagree with everything because it can give people cancer and even kill them. Thanks alot for reading this and I hope you do something about it by supporting Muskowski amendment NUREG 0360.

Sincerely,

Heather Stewart
