Re: N.R.C. License 29-19080-02E

Dear Mr. MacKenzie:

Please be advised that during 1st Quarter 1988, the distribution network for Lorus products will broaden.

In addition to our own facility at 200 International Drive, Mt. Olive, NJ, ten newly-designated distributors will be receiving shipments of Lorus products directly from the Orient.

All shipping documentation and certification concerning our use of Promethium Oxide 147 will remain the same...save for the name and address of each shipment's consignee.

Here is a list of our new Lorus distributors:

Gentlemen:

This refers to your June 15, 1988 letter concerning the fee required for your March 30, 1988 request for an amendment to License 29-19080-02E.

Pulsar Time's Check No. 16242 for \$60 referenced in your letter was processed as the amendment fee required for Pulsar's February 2, 1988 request for an amendment to License 29-19080-02E to include ten new distributors. Your March 30, 1988 letter references a February 2, 1988 letter; however, since the February 2 letter was from Pulsar Time and not from Hattori, the two requests were not combined at that time. This has now been corrected and you should disregard our June 15, 1988 letter. Your requests have been forwarded to the Licensing staff for processing.

If you have any further questions regarding this matter, please let us know.

Sincerely,

Signed by:

MAR 30 1989

Gentlemen:

Enclosed find Amendment No. 02 to License No. 29-19080-02E.

Concerning the letter dated March 7, 1989, signed by R. J. Brush which clarifies your activities as an importer and distributor of the Lorus products under this license. The procedure you have outlined in your letter appears to be in accordance with the alternate licensing scheme we described in our February 7 letter, except that Hattori Corporation of America, as the NRC licensee, must receive copies of the "Certification of Compliance" and any other shipping records sent by Hattori Seiko to the Lorus customers. This is necessary because when inspected by NRC, Hattori of America will need to show that each shipment was accompanied by the certificate as required in its license. Also, Hattori of America must have this information in order to provide NRC with 5 year transfer reports in accordance with Section 32.16 requirements.

Please note that NRC has not exempted Hattori from any requirements of its regulations. We simply are recognizing that Hattori, as an initial transferor, is having imported products direct shipped to its Lorus customers. NRC will continue to hold Hattori of America fully responsible for these products, and for complying with NRC requirements. It was our understanding from our earlier contacts that copies of these records would be received by Hattori of America. You should contact us immediately if our understanding in this matter is not correct.

If you have questions, please feel free to call me at (301) 492-0634.

Sincerely,
