Washington, D.C. 20555

Dear Sir:

Alaska is such a beautiful place, great wildlife
& lots of natural resources

I agree with Senator Murkowski's amendment
(Nureg 0360) instead of IAEA standards for stricter
regulations on containers carrying plutonium across
our great state. It should be enforced & checked very
strictly, too many accidents of carelessness like the
Prince William Sound oil spill have happened.

Plutonium can & will cause all sorts of cancers &
the stuff isn't at all easy to clean up; it just stays
around and ruins things,

Sincerely,
Barbara Williams
