OFFICE OF REGULATORY
DOCKETING & SERVICE
BRANCH A, D.C. 20555

Dear Sir,

I am totally against plutonium being flown over Alaska. you must remember Sen. Murkowski's amendment (Nureg 0360). say, if it crashed, it could cause all kinds of cancer. Alaska is a fishing and hunting state. The fish and game would catch cancer and ~~there~~ there would be no more hunting or fishing. Also it would continue being poisonous for thousands of years.

Sincerely,

Jennifer Day
