Docketing and Service Branch
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

I am writing to you about Senator
Murkowski's amendment NUREG 0360
which requires safer containers for
plutonium.

Plutonium is radioactive and
can yield atomic energy. The energy
needs to be enclosed by safe con-
tainers if the plane crash.

Sincerely,
Steve McGinnis
