Washington, D.C. 20555

Dear Sir:

I support the Murkowski amendment  
(NUREG-2360) in stead of IAEA standards.  
The reason is because if they don't have  
better containers to hold the plutonium  
and it ~~crashes~~ crashes the state will be radio  
active for a long time also alot of  
~~people~~ people would die from diseases and  
lack of wild life for food.

Sincerely,  
Brian Wilkerson
