OFFICE OF SECRETARY
DOCKETING SERVICE
BRANCH

Docketing + Service Branch
U.S. Nuclear Regulations Commission
Washington D.C. 20555

Dear Sir:

I'm writing about the
Muskowski amendment
(NUREG 0360). I am for the
Muskowski amendment and
against the IAEA standards.

Some of the reasons are
that if there were to be a
crash it would have
devastating effects on
the wildlife, the land, and
the food supply in Alaska.

There are too many
valuable things in Alaska
such as the salmon
runs, the deer, and the
forests for them to be destroyed
by plutonium. Everything
including the people could
be contaminated if there was
a crash and the plutonium
leaked out because of unsafe
containers.

So please reconsider
the Muskowski amend-
ment (NUREG 0360) Please

make safer containers
for the plutonium.

Sincerely,
Patti Fenner
