Docket: ~~35~~-07514/90-01

Dear Mr. Beach:

This response refers to the January 23, 1990, inspection of our  
Teletherapy program.

- Item #1 As discussed with your inspectors, the monthly spot check records were found to be misplaced just weeks prior to your inspection. I had placed a call to our physicist, at that time, to notify him of our problem. He assured me that he maintained duplicates and would forward me a set of those duplicate records if we could not locate ours. It was at this time, that your inspectors visited our facility which rendered us in noncompliance due to the unavailability of the monthly spot check records.
- Item #2 Corrective steps have been taken and the complete monthly spot check records have been retrieved from our physicist.
- Item #3 These records have been properly filed along with all other NRC related records and will be reviewed periodically for their presence and completeness.
- Item #4 Full compliance was achieved January 24, 1990, as per our weekly, Wednesday visit by our physicist.

In closing, I would like to express my appreciation for the kind and professional manner of Mr. Cain and Mr. Rajendran in conducting this inspection.

Sincerely,

Ronald Eugene Hilton, (RN)R.T./RSO
