MEMORANDUM FOR: Vandy L. Miller, Assistant Director
for State Agreements Program
State Programs

FROM: Richard L. Bangart, Director
Division of low-Level Waste Management
and Decommissioning, NMSS

SUBJECT: TEXAS DRAFT CHANGES TO URANIUM RULES AND MOUS
WITH TEXAS WATER COMMISSION AND RAILROAD COMMISSION

I have briefly reviewed your February 22, transmittal on the subject rules, and I concur with your transmission of the subject package (enclosed) to Region IV. The critical areas include the definition of byproduct material, the provisions for financial security (assurance) and the provisions for ultimate custody and long-term care. These issues should receive high priority in the upcoming discussions with the State of Texas during the mid-April program review.

Should you have any questions regarding this transmittal, please contact Myron Fliegel or Giorgio Gnugnoli of my staff on extension 20578.
