Gentlemen:

SUBJECT: REQUEST FOR AN AMENDMENT TO LICENSE NUMBER 34-17013-02
DATED JULY 14, 1989 AND OUR REQUEST FOR ADDITIONAL
INFORMATION DATED AUGUST 11, 1989

We requested in the above mentioned letter that you respond to us within 30 days. A check of our files indicate that we have not received an adequate response from you to date. In addition, we notified you in the above mentioned letter that we would void your request if you did not respond to our letter within 30 days.

We received your September 1, 1989 letter; however, we did not receive any of the information you stated we would be receiving under separate cover from your September 1, 1989 letter.

You are hereby notified that we consider your application abandoned and have voided your request. This action is without prejudice to resubmissions.

Sincerely,

Attention: Ms. Patricia J. Pelke

Subject: Byproduct Materials License No. 34-17013-02
Control Number 87658

Dear Ms. Pelke:

Licking Memorial Hospital is furnishing additional information to expedite the oncoming teletherapy unit and source change. The license should include the installation of an Advanced Medical Systems, Inc. Catalog No. AMS 3801, Cobalt-60 source, 1.5 cm Diameter, 6600 Rhm into a refurbished Picker C-9. The unit installation and source exchange originally had been scheduled for September 4, 1989. A delay for this work is expected in completion of this transaction. The supplier has forecasted a September 30th, 1989 availability of this remanufactured system. Information specific to the manufacturer's name and model number of this unit along the maximum activity of the source will be fax-mail to you by the vendor. The supplier is Advanced Medical Systems, Inc. (or ATC, Inc.), 121 North Eagle Street, Geneva, Ohio 44041. This location had been designed originally and specified for a Picker Corp. Model C-9 with a beam stopper fitted with a 9000 Curies source. The placement of this new installation is within these original plans. Responses for items 9.4 and 9.5 will be sent under separate cover. An extension for the continuous use of the current system to 12/04/89 is requested to accommodate the delay.

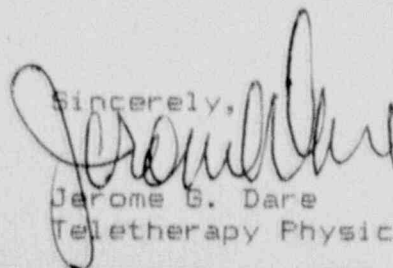

The disposal of the existing source from Neutron Products, Inc. with the Picker V3000 (Model 6202) Teletherapy unit will be performed by Advance Medical Systems, Inc. in accordance with all applicable regulations.

This amendment request is supplied in duplicate for your consideration. A bank draft for \$230.00 as specified in category 7C of 10CFR170.31 had been enclosed previously for this transaction.

Gentlemen:

We have reviewed your letter dated July 14, 1989 requesting an amendment to NRC Byproduct Material License No. 34-17013-02 and find that we will need additional information as follows:

1. Although you are requesting authorization for a 6600 RHM source, you have not given us all of the information on the source and teletherapy unit that we need in order to amend your license. Please:
 - a. Specify the manufacturer's name and model number of the new teletherapy unit you will be installing.
 - b. Specify the maximum activity (in curies) associated with the Advanced Medical Systems Model 3801 source with an output of 6600 RHM.
2. In order to authorize the increased activity for the new teletherapy source you are requesting, it will be necessary for you to respond to Items 9.4 and 9.5 (in entirety) of the enclosed "Guide for the Preparation of Applications for Licenses for Medical Teletherapy Programs" dated December 1985 to ensure that your facility can safely accommodate the teletherapy source/unit combination.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 87658.

Upon failure to file a response within the specified time, we will consider that you have abandoned your request and will void this action. This is without prejudice to resubmission of the application.

Sincerely,
