Dear Commissioner Jackson

I am deeply concerned about the safety problems at the W. 2<sup>nd</sup> nuclear reactors. Recent news has made it clear to many Connecticut residents that Northeast Utilities is incapable of running these plants safely. The restart schedule is too aggressive and unrealistic in light of the thousands of corrections which need to be addressed and the company's inability to address employee safety concerns.

I urge you to keep W. 2<sup>nd</sup> from restarting. *W. 2<sup>nd</sup>*
