Office of International Programs

SUBJECT: FINDINGS RELATED TO THE PROPOSED IMPORT OF 580 GRAMS
URANIUM, ENRICHED TO 70% - ISNM80010

On September 4, 1980, General Atomic Company requested a license authorizing the import of 580 grams of uranium, enriched to 70% U-235, contained in three FLIP Triga fuel elements, from Mexico. The proposed import was authorized previously by license ISNM78023, which expired before the import could be made.

The findings made in connection with ISNM78023 remain valid and it is recommended that this license application be approved.
