DOCKET NO. 50-409

U. S. Nuclear Regulatory Commission
ATTN: Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
Division of Operating Reactors
Washington, D. C. 20555

SUBJECT: DAIRYLAND POWER COOPERATIVE
LA CROSSE BOILING WATER REACTOR (LACBWR)
PROVISIONAL OPERATING LICENSE NO. DPR-45
POST TMI REQUIREMENTS

Reference: (1) NRC Letter, Eisenhut to All Operating
Reactors, dated October 31, 1980.
(2) DPC Letter, Linder to Eisenhut, LAC-7359,
dated February 3, 1981.

Gentlemen:

Your issuance of NUREG-0737 (Reference 1) summarized requirements for post Three Mile Island action items. Our response (Reference 2) specified one item, III.A.2.1 - Revised Radiological Emergency Response Plan, where the date outlined in NUREG-0737 could not be met. In our response (Reference 2), we indicated that the revised date for completion and submittal of our revised Radiological Emergency Response Plan would be March 2, 1981.

This revision of our Radiological Emergency Response Plan will require additional time beyond that requested in Reference 2 due to contracting outside consultants to work with DPC technical staff engineers in finalizing a more thorough final draft of our Revised Radiological Emergency Response Plan which will consider all applicable criteria specified by NUREG-0654, Rev. 1. Our revised date for submission of our Revised Radiological Emergency Response Plan will be March 31, 1981.

In addition, all Revised Emergency Plan Implementing Procedures commensurate with specifications of NUREG-0654, Rev. 1, will be submitted by March 31, 1981.

Mr. Darrell G. Eisenhut, Director
Division of Licensing

LAC-7394
March 2, 1981

If there are any questions regarding this letter, please let us know.

Very truly yours,

DAIRYLAND POWER COOPERATIVE

Frank Linder, General Manager
