

Northern Indiana Public Service Company

General Offices / 5265 Hohman Avenue / Hammond, Indiana 46325 / Tel.: 853-5200 (219)

March 4, 1981

Mr. Harold Denton, Director
Nuclear Reactor Regulation
Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

Northern Indiana Public Service Company (NIPSCO) submitted safety-related pile installation procedures (pile driving QA/QC procedures) for Staff review on July 14, 1978.

During the subsequent review of the Bailly N-1 pile design by the Staff, ACRS, and Army Corps of Engineers, detailed pile placement requirements in addition to those included in the original pile installation procedures were submitted by NIPSCO. Such additional detailed pile placement requirements will, of course, be incorporated into the July 14, 1978, pile installation procedures prior to installation of safety-related piles for Bailly N-1. The revised procedures will be available for NRC review prior to commencement of such installation.

Very truly yours,

A handwritten signature in dark ink, appearing to read "E. M. Shore". The signature is fluid and cursive, written over a light-colored background.

E. M. SHORE
Executive Vice President
and Chief Operating Officer
