

TERA

APR 15 1981

Docket Nos.: 50-416/417

APPLICANTS: MISSISSIPPI POWER AND LIGHT COMPANY  
MIDDLE SOUTH ENERGY, INC.  
SOUTH MISSISSIPPI ELECTRIC POWER ASSOCIATION

FACILITY: GRAND GULF NUCLEAR STATION, UNITS 1 AND 2

SUBJECT: SUMMARY OF MARCH 26, 1981 MEETING

On March 26, 1981 members of the staff met with the applicant in Bethesda, Maryland to discuss the Grand Gulf operating license review schedule and projected fuel load date. The list of attendees is provided as Enclosure 1.

The meeting consisted of a discussion of the Grand Gulf OL review schedule, with a focus on both the construction status and significant safety review areas. The applicant reiterated its commitment to meeting its estimated fuel load date of December 31, 1981. The staff indicated that although it estimates construction completion in July 1982, the OL review is being performed consistent with the applicant's estimated fuel load date. The staff stressed the importance, however, of timely and satisfactory applicant submittals in the areas of environmental qualification of equipment and hydrogen control measures, and suggested that the applicant consider meeting with us in the near future to discuss these technical topics in greater depth.

Joseph A. Martore, Project Manager  
Licensing Branch No. 3  
Division of Licensing
