Dear Sir:

Three Mile Island Nuclear Station, Unit 2 (TMI-?)  
Operating License No. DPR-73  
Docket No. 50-320  
Long Term Waste Staging Facility

In our letter of December 12, 1979 (GQL-1509), we indicated in item 12 that we would submit to you our recommendations for the long term waste staging facility by April 1980. Since that time the schedule has been revised several times. The submittal date of this item is uncertain due to an effort underway to evaluate the priority of projects based on resources and applicability to the cleanup effort. Since this project and several other related projects are being evaluated and the determination has not been finalized, a schedule for submittal cannot be accurately defined at this time. We will provide a schedule when more information becomes available.

Sincerely,

G. K. Hovey  
Vice-President and  
Director, TMI-2
