

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

MAY 07 1981

Docket No. 50-219
LS05-81-05-006

Mr. I. R. Finfrock, Jr.
Vice President - Jersey Central
Power & Light Company
Post Office Box 388
Forked River, New Jersey 08731

Dear Mr. Finfrock:

SUBJECT: SYSTEMATIC EVALUATION PROGRAM TOPIC III-7.B, "DESIGN CODES,
DESIGN CRITERIA, LOAD COMBINATIONS AND REACTOR CAVITY
DESIGN" (OYSTER CREEK)

As discussed with Mr. J. Knubel of your staff, we will be conducting a visual inspection of structural systems employed at your facility on May 12, 1981.

We would like to view the following:

- Reactor Building (secondary containment)
- Spent Fuel Pool
- Vent Stack
- Control Room (and supporting part of the turbine building)
- Intake and Discharge Structure
- Turbine Building

First, we would like to obtain and review structural drawings showing generally the types of structural systems employed in the design of each of the above structures. We would then like to view each of the above structures. Afterward, we would like to have available a structural engineer familiar with the structural design of the plant to answer questions which may arise. Also, we would like to be able to obtain as-built structural drawings while at the site of particular features noted while viewing the above structures.

Sincerely,

Dennis M. Crutchfield
Dennis M. Crutchfield, Chief
Operating Reactors Branch No. 5
Division of Licensing
