Attention: Docketing and Service Branch

Subject: Draft Regulatory Guide "Establishing Quality Assurance Programs for Packaging Used In The Transport Of Spent Fuel, High-Level Waste, And Plutonium: Task TP 020-4.

Dear Sir:

Commonwealth Edison has reviewed the subject guide. This draft Regulatory Guide is structured almost identically to Appendix B to 10 CFR Part 50 covering quality assurance criteria now in effect for nuclear power plants. We believe that the program from 10 CFR Part 50 should cover the scope of the subject draft Regulatory Guide or that the draft Regulatory Guide take into account the QA program established under Appendix B to 10 CFR Part 50.

We appreciate having been given the opportunity to comment.

 J. S. Abel
