

DOCKET NUMBER
PROD. & UTIL. FAC. 50-133

Dear Mr. Hendrie:

I oppose the NRC's failure to act in the public's best interest: to decommission the Humboldt Bay Nuclear Power Plant. This plant has been unsafe for years. It would be totally irresponsible to allow P.G. & E. to use it as a nuclear waste dump. They have been risking lives & wasting money for too long. Please support the decommissioning now. Sincerely,
John McLean
