Docket Nos. 50-317 and 50-318

> Mr. A. E. Lundvall, Jr. Vice President - Supply Baltimore Gas & Electric Company P. O. Box 1475 Baltimore, Maryland 21203

Dear Mr. Lundvall:

SUBJECT: ELIMINATION OF ITEM II.K.2.19 (SEQUENTIAL AUXILIARY FEEDWATER FLOW ANALYSIS) REQUIREMENT FOR LICENSEES WITH NSSS DESIGNED BY W AND CE

We have completed a generic review on this subject and conclude that no further action is necessary since the concerns expressed in Item II.K.2.19 of the TMI Action Plan, as clarified in NUREG-0737, are not considered applicable to NSSSs with inverted U-tube steam generators such as those designed by Westinghouse add Combustion Engineering.

We consider this item to be complete and therefore you are not required to respond to Item II.K.2.19 of the TMI Action Plan.

Sincerely,

Original signed by Robert A. Clark
