Gentlemen:

Subject: Inspection No. 81-01

This refers to the routine, safety inspection conducted by Mr. P. Jerman of this office on February 23, 1981 of activities authorized by NRC License Nos. 20-05271-01 and SNM-1791 and to the discussions of our findings held by Mr. Jerman with yourself and Dr. Upatham of your staff at the conclusion of the inspection.

The inspection was an examination of activities conducted under your licenses as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your licenses. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.
