SUBJECT: FINDINGS RELATED TO THE PROPOSED IMPORT OF LOW-
ENRICHED URANIUM FROM FRANCE-ISNM81012

Transnuclear, Inc., submitted an application dated June 17, 1981 for a license authorizing the import of 49,811 kilograms of uranium, as UF₆, enriched to 1.12% U-235. The material will be packaged in 4909 Type B packages, IAEA/US/4909/B()F.

This proposed import is essentially the same as previous imports of low-enriched UF₆ and represents no material change in circumstances from conditions and findings which existed at the time of the earlier imports, reference ISNM780017, ISNM80007, and others. It is recommended that this license be issued.
